\*For Premium and Textured colors, we recommend all materials be ordered together as paint color may vary order to order.

\*\*24 gauge available upon request.

†Copper Metallic panels must be installed in the same direction. See directional arrows or stickers provided on your panels. Color variation between orders is normal and not cause for rejection.

#Weathering and appearance variation, including color, sheen, and spangle, is common in non-painted materials and is not a cause for rejection. For consistent appearance, choose a paint-finished product.

Colors on this chart are close representations of actual metal color, limited by printing and viewing conditions. Color matching optimized for outdoor viewing.

Customers should view an actual material sample before making a final color selection.

Contact your sales representative for accurate pricing.

Steel Gauge	29 ga.	26 ga., 24 ga.**

Horizon-Loc features UL2218 approval for impact resistance and may qualify for a homeowners insurance discount. See your local insurance agent for qualifications.

# Upgrade to Texture for a new depth of color and added durability.

The granular finish of SMP with Texture combines a matte appearance with shimmering tones to provide a depth of color never before seen on traditional metal panels.

- Mimics the texture of shingles • Reduces glossiness and glare • More scratch resistant • More slip resistant • 26 ga. matching trim •

\*For Premium and Textured colors, we recommend all materials be ordered together as paint color may vary order to order.  
\*\*24 gauge Horizon-Loc available from the following sites: Lowell, AR; Cedar Hill and Seguin, TX; and St. Peters, MO.
